Special sales conditions for elastoclic pur
--

I. General:

With follow-on orders of an elastoclic pur article, there is no guarantee that the batch will be the same as in the previous delivery. Goods returns arising from over-ordering to provide a safety margin will not be accepted by Witex.

II. Batch uniformity:

With elastoclic pur you should ensure that the product is laid from a single batch. (Do not mix in one room under any circumstances). Production in batches is normal for all textile and elastic coverings and also for wallpaper.

III. Order colours:

Please note the amended cancellation rights for elastoclic pur. It is no longer possible to cancel an order after the order has been confirmed. Overproduction quantities of up to 3 % in full packing units must be accepted. The delivery period for order colours is 4-6 weeks.

IV. Special colours:

Special colours are possible from 500 m² upwards on enquiry and with a sample order (€ 250.00 per sample). Overproduction quantities of up to 5% in full packing units must be accepted. The delivery period for special colours is 4-6 weeks after the final sample approval.
